INSTRUCTIONS TO CLERK:

Addendum to Alpine County Redistricting Advisory Commission Report

Every ten years, local governments use new census data to redraw their district lines to reflect how local populations have changed. Assembly Bill 849 (2019) requires cities and counties to engage communities in the redistricting process by holding public hearings and/or workshops and doing public outreach, including to non-English-speaking communities.

Districts must be redrawn so that each district is substantially equal in population, ensuring that each board member represents about the same number of constituents. In Alpine, the Board of Supervisors is responsible for drawing supervisorial districts. This year the state verified U.S. Census data for Alpine County was released September 19, 2021. The Alpine County redistricting process must be completed by December 15, 2021.

Redistricting determines which neighborhoods and communities are grouped together into a district for purposes of electing a board member. The Alpine County Redistricting Advisory Commission, which is made up of volunteer members of the public, has been working to develop fair and representative district maps for the Board of Supervisor's consideration.

Please see the Alpine County Redistricting Advisory Commission Report and Addendum available on the 2020 Redistricting website for further background material, comments and recommendations.

This Addendum includes subsequent considerations and recommendations of the Alpine County Redistricting Advisory Commission, that address the Board of Supervisor's concern regarding the people of the Hung-A-Lel-Ti Community and also a map that provides close compliance with state and federal requirements in terms of population, geographic and community of interest. The Redistricting Advisory Commission met on November 18, 2021, to discuss another redistricting option specifically focusing on the Hung-A-Lel-Ti Community, working within the confines of the population requirements and the census blocks.

After discussion among Commission members, the following is submitted for the Board of Supervisor's consideration:

Discussions, Conclusions and Recommendations

- The 2020 U.S. census configurations provide a challenge to separate the districts along natural geographic lines, census blocks and Communities of Interest. The Advisory Commission has been advised by County Counsel that the Carson River area census blocks may be within the definition of contiguous in District 3. The integrity of the Hung-A-Lel-Ti Community remains respected and secured as a majority-minority district for elected representation in each of the district map options provided to the Board of Supervisors.

The Alpine County Redistricting Advisory Commission respectfully recommends the following considerations:

Alpine County Redistricting Advisory Commission Map Option #4

- This map represents an accurate representation of the real and authentic geographic areas that correspond to the Communities of Interest for our various communities, while conforming to the census block and population requirements. Option 4 provides the largest number of Hung-A-Lel-Ti Community members to District 3. The Redistricting Advisory Committee voted that this is the first desirable option for approval.

Alpine County Redistricting Advisory Commission Map Option #5

- This map represents an accurate representation of the real and authentic geographic areas that correspond to the Communities of Interest of Alpine County. It is an alternative that provides the highest compliance with population allocation and geographical boundaries and compaction among the 5 options provided.

Matrix of the elements of the 5 map options:

- The attached spreadsheet includes compliance of the 5 map options with the various requirements which have been pertinent to the district drawing process, including recommended ranking of the 5 map options.

The Commission also recommends, in conjunction with discussion with County Counsel, that discussion and review of the redistricting process and options should be heard in open session.

The volunteer members of the Alpine County Redistricting Advisory Commission have been exceptionally engaged in this process. Members have all brought their own particular knowledge, expertise, skills, ethics and thoughtfulness in support of the Board of Supervisor's consideration for the 2020 U.S. Census redistricting process. We would encourage anyone interested in learning more about this process to listen to the meeting audios on the Alpine County website at <http://www.alpinecountyca.gov/584/Alpine-County-Redistricting-2021>.

The Alpine County Clerk's Office, the Alpine County Community Development Department, County Counsel and Ryan Goodner-Belli of VESTRA have been generous in providing the necessary support and expertise needed to bring this advisory process forward.

We pleased to forward the five (5) District Map options to the Board of Supervisors and remain available to the Board of Supervisors for further questions.

County residents are encouraged to share how district boundaries should be drawn to best represent our communities. Contact the Alpine County Clerk [email](#) to find out more about how the process works or go to the Alpine County website, under "Government" to find the Alpine County Redistricting 2021 webpage, <http://www.alpinecountyca.gov/584/Alpine-County-Redistricting-2021>.

Respectfully submitted November 18, 2021

Jeanne Lear
Chair, Alpine County Redistricting Advisory Commission

Agenda Item No. 10.7
Topic Addendum - Redistricting
Please choose from the following: I am in support of this item.

Comments We thank you, that you have come up with another redistricting option to help achieve minimizing the muting voters voices and keep together those with similar living standards and social interests.

Attachment: Public Comment (1030 am Redistricting Map option)

Placing River Ranch Road into District 1, (we believe this is your option 3) would help in reaching those goals. Fire insurance, Taxes and school bonds are issues that affect District 1 (Markleeville), and are essentially the same as our neighborhood. Please place River Ranch Road in District 1 instead of District 3. We are in favor of this option.
Thank you,

Comments It is my understanding that the redistributing of boundaries should minimize muting voters voices and keep together those with similar living standards and social interests.

That would not be the case if you redistrict River Ranch Road into District 3 instead of it remaining in District 5. Fire insurance, Taxes and school bonds are issues that affect District 3 and District 5 differently. River Ranch Road is served by the same box for our internet and phone outages as District 5. Please reconsider removing River Ranch Road from District 5. Thank you,

Comments I'm concerned that combining River Ranch with District 3 would minimize the voter interests of both District 5 and District 3. Issues such as fire insurance, school bonds and property taxes

affect the current constituencies of both Districts differently. For example, River Ranch Road currently shares the same box for internet and phone service and inevitable outages as do others in existing District 5. Please do your best to consider maintaining River Ranch Road constituents within District 5. Thanks for your consideration.
