

The
**ALPINE DIGITAL BRIDGE
PROJECT**

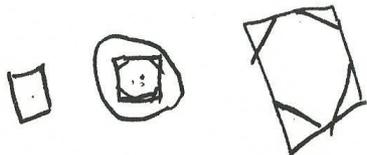

Your New Digital Learning Center!

In the Beginning...

There were

Sketches...

Birds Eye View

9'

GR6 leg

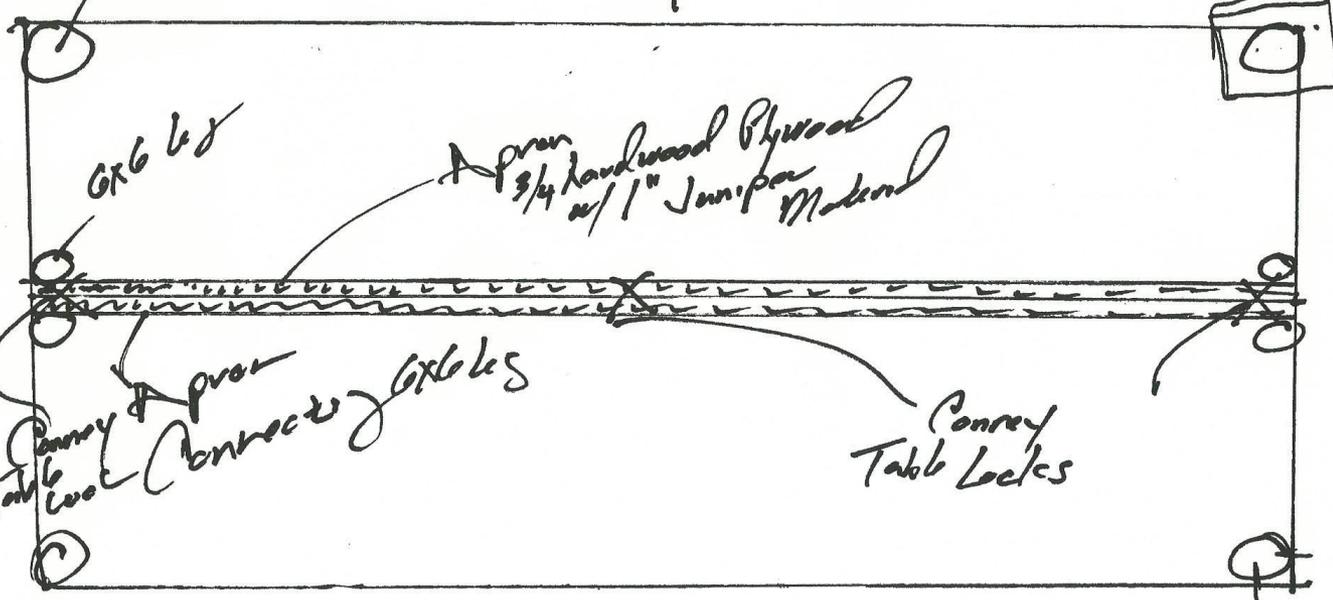

GR6 leg

A pair of 3/4" hardwood Plywood w/ 1" Juniper Material

Conroy & Proven Table Lock Connectors GR6 legs

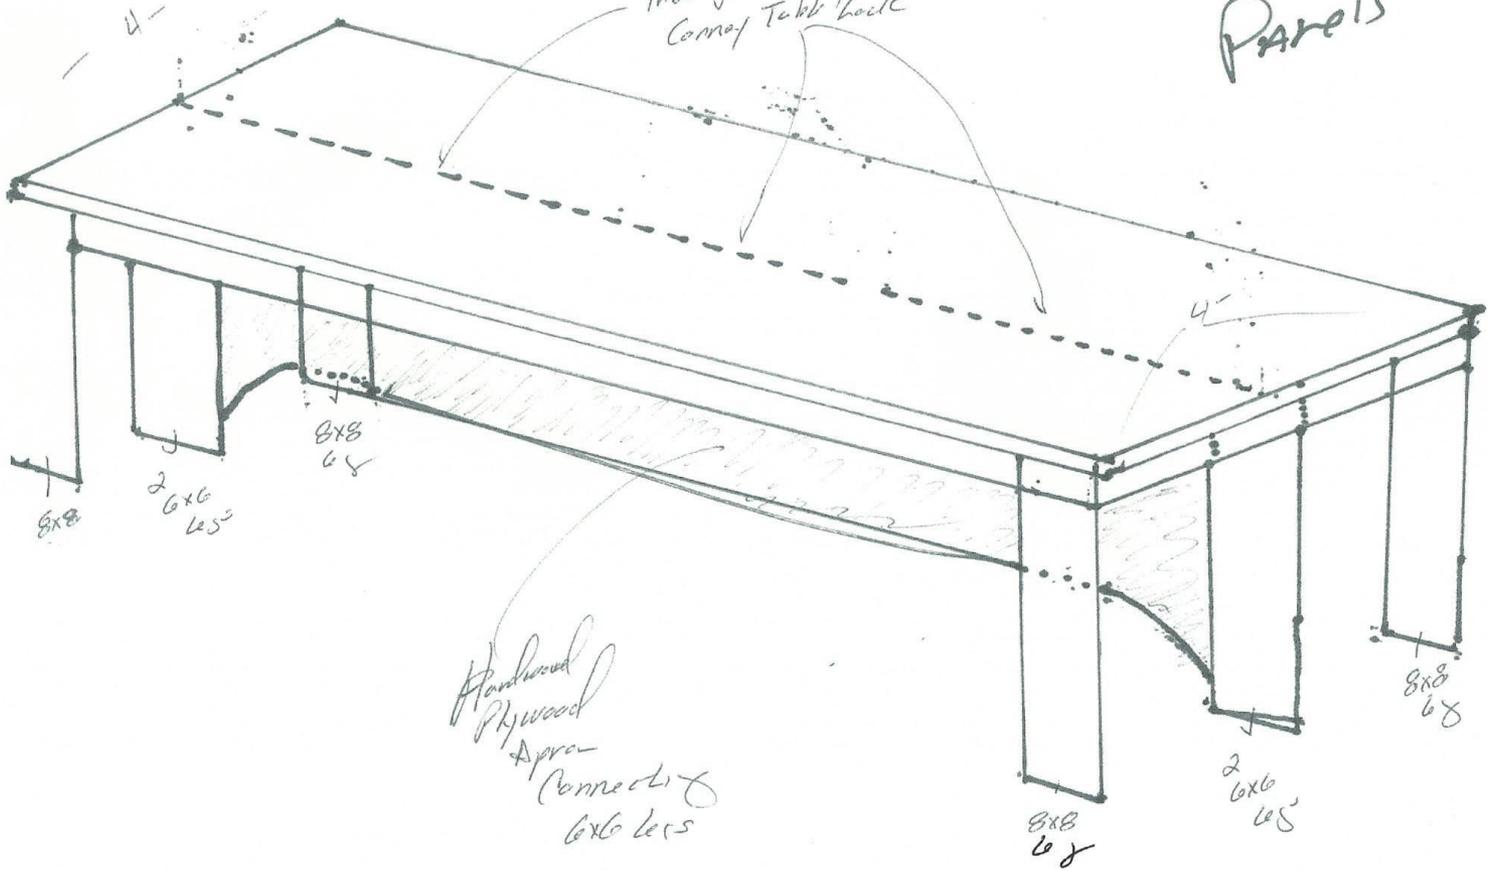

Conroy Table Locks

4'

W/out
Panels

Table Joinery by
Corner Table Lock

Sketches became reality

Don's loyal assistant Annie helps build the dream

Stained glass enters the picture

Four months later, the vision
came to life

Delivery day = heavy equipment day

Joe does a balancing act...

First half arrives safely

Rolling into position

Ready for second half

Together at last!

Installing new computers

A trial run...

...meets approval!

Supervisor Hames learns about Cool Math Games.

Mom is intrigued!

One last design element—boxes for computer towers

Let the learning continue!

Original computer class at Diamond Valley School, 2011 *(and inspiration for the grant)*

Special thanks to IMLS & the
California State Library for
funding this project

And to the staff at E2C for
installing new computers and
software

Our Deepest Gratitude goes to

Don Hittenmiller—Artist & Woodworker

Annie Dean—Admin Assistant *Extraordinaire!*

Richard Shokouh—Stained Glass Artist

Lloyd Van Doren—Metal Works

Joe Turner—Delivery Assistance

*Thanks for creating a one-of-a-kind
masterpiece!*
