## LP-GAS EQUIPMENT INSTALLATION FORM

This form is a supplement to the [Building Permit Application](#) for installation of LPG (propane) tanks, piping and equipment (i.e. water heaters, furnaces, boilers). The information provided will aid in an efficient and timely review, permit and inspection process.

**Applicant Information:** Name \_\_\_\_\_ Phone No: \_\_\_\_\_

E-Mail Address: \_\_\_\_\_

**Property Owner Information:** Name \_\_\_\_\_ Phone No: \_\_\_\_\_

E-Mail Address: \_\_\_\_\_

**Property Location or Address of Project:** \_\_\_\_\_

Is a new LPG tank proposed to be installed - Above ground? \_\_\_\_\_ Below ground? \_\_\_\_\_  
If yes, please attach a separate size 8 ½ x 11 simplified drawing showing capacity of tank, approximate property lines, structures, driveways and respective distances to proposed tank location.

Will new gas piping be installed from the tank to the building? Yes \_\_\_\_\_ No \_\_\_\_\_

Will new gas piping be installed on or within the building? Yes \_\_\_\_\_ No \_\_\_\_\_  
If yes, please attach a separate size 8 ½ x 11 simplified diagram showing pipe size, length of piping run and approximate BTU's of all connected equipment.

Will equipment such as water heaters, furnaces or boilers be new installs? Yes \_\_\_\_\_ No \_\_\_\_\_  
If yes, please attach a diagram of the proposed location.

Please be advised that proposed basement or sub-floor locations of equipment require specific review of access, construction, ventilation, and monitoring requirements. If such locations are proposed please attach a separate detailed plan.

The California Energy Commission requires that certain energy compliance forms be completed and submitted for new and replacement furnaces. Please contact a California State Licensed Mechanical Contractor or Consultant for assistance in the preparation of subject forms.
